Make your communication with clients, contractors and business partners chocolate.  
Choose your own chocolate format - Choco4Mat!**

Śłodkie Upominki – specialising in the designing, production and packing of promotional confectionery - developed and implemented a unique and innovative module technology of manufacturing forms for chocolate. The technology gives a possibility of replacing a part of the form, thanks to which its personalisation is now possible in a very short, express time with costs significantly lower than for traditional forms.

Choco4Mat is not only an attractive form, but also a guarantee of the highest quality of chocolate. Śłodkie Upominki already since 2007 has been cooperating with Barry Callebaut, a world's leader in the production of high quality cocoa and chocolate products.

The offer within the Choco4Mat line will be regularly updated.
